

New Macks shine in Clare

A fleet of new Mack primemovers visited Clare Showgrounds in November as part of a national showcase.

The fleet was showing the latest technology changes for Mack, which impressed the truck drivers who turned out for the event.

A 7am start, with free bacon and eggs for breakfast, got the taste buds going for those who drove a distance to see the trucks.

"Everything has changed, the shape, cabs, chassis and suspension ... it was a ground up change for the trucks," Darryl

Smith, from South Central Trucks Mack, said.

There are five models, which range in size from 265 horsepower to 600 horsepower.

They can tow a whopping 36 tonne right up to 240 tonne and Darryl said they have a myriad of new features.

Neil Graham from Redhill, Peter Rowlands from Chase Finance in Adelaide and Darryl Smith from South Central Trucks (Mack), have a look at the new breed of Mack trucks.

Checking out the Mack Superliner is Philip Dohnt from Snowtown and Gavin Anderson from Brisbane.

Bob Heinrich from Auburn has a look at the new and improved Mack Truck at the Clare Showgrounds.
