Brief: HH-CMV

On his way: John Isley, of CMV Truck and Bus, Laverton, in one of Mack's special Titans.

Mack, Volvo line up

CMV TRUCK and Bus will have a big presence at the International Trailer, Truck and Equipment Show.

The CMV group has taken over 800 square metres on the Royal Block lawn area to highlight the new range of Mack and Volvo products.

“The show has become huge and gained a lot of momentum as the industry seems to have really grabbed hold of it,” said Darren Cowan, CMV’s Laverton branch manager for Mack.

Among the new trucks on display from Mack Trucks will be a cross-section of the “New Breed” range recently released in Australia.

Volvo will have on show Australia’s most powerful truck, the FH16 660, as well as an FM400 8x4 and the newly released FE6x4 fitted with a sideloader.
